## Programme

*Communicating Science, Technology and Medicine*

Please find below the provisional general program, list of authors' names ordered alphabetically by first name, together with the number of session and day in which authors speak, and finally the list of sessions with titles and session number.

Abstracts are available online in [Abstracts](#).

Together with the sessions proposed and approved the local organising committee has organised a set of sessions with the stand alone papers grouped according to themes and periods. We tried to accommodate all requests by participants both concerning sessions and dates.

Please bear in mind that **each session's slot corresponds to a 2h period**. Sessions usually include 4 speakers, or less frequently 5 and also in few cases a commentator.

Regular sessions with **4 speakers correspond to 20 min presentations** followed by 10 min discussion, or a 40 min discussion at the very end.

For sessions with **5 speakers, 15 min is allotted to each**, and in the cases there is a commentator, discussion should follow all presentations and the commentators' presentation. Please feel free to contact us if necessary.

**Please bear in mind that your abstract will only be included in the Book of Abstracts if your registration and payment has been completed by June 30.**

Power point presentation and computer will be available in all lecture rooms.

All the best,

On behalf of the local organising committee, *Ana Simões* and *Maria Paula Diogo*
